# Southern Spain's Summer INSPIRATION

Verónica Moncho Lobo's spring/summer 2013 collection is inspired by the bright colours of early spring flowers reminiscent of trips to southern Spain.

Verónica stands out as a contemporary designer through her choice of bright colours and bold combinations identifying her with her Latin American roots. She transmits passion through colour construction and a rich combination of fabrics. White and off white are the canvas for bright pinks and crisp yellow-greens. The prints developed by Verónica capture her essence and inspiration through figure hugging cottons and delicate silks. Luxurious golden silks add that sparkle of Andalusian sun across the collection. ●
